Name of Study: Mental Health Help-Seeking Preferences in College Students

Short Description of Study (one line): Participants will be asked to complete surveys about themselves. This study can be completed completely remotely.

Long Description of Study (provide more detail): This research is being conducted to examine college students' help-seeking preferences for mental health symptoms. If you agree to participate, you will be asked to complete a series of surveys about your personality and mental health. You will also be asked to answer questions about your personality, background, and who you would be most likely to talk to about your mental health.

Subject Restrictions: Participants must be at least 18 years old and fluent enough in English to consent and answer survey questions. Participants cannot have previously participated in this study.

Name of Principal Investigator/Contact Information: Natasha Tonge, PhD. - ntonge@gmu.edu

Name of Experimenter/Contact Information: Gracie Kelly - akelly32@gmu.edu

Number of Credit Hours Offered: 1.5

Duration of Study: 90 minutes

Date(s) and Time(s) of Study Sessions: Asynchronous

Location of Study: This study will be completed virtually from participants' computers, smart phones, or tablets.

Special Requirements or Additional Researcher Comments: N/A

Institutional Review Board

Project Number: 1974781-1

IRB: For Official Use Only
